Newsletter

A Note of Thanks to Donors, Sponsors, and Volunteers

We at HHGDSBR want you to know that you are appreciated. Never think that what you give or what you do is not enough. Every gift or deed helps us to continue to save the dogs.

Some of you may ask yourselves, “How have I helped?” Well, the person you spoke to at the vet’s office, at the supermarket, or on the street may have told a friend or relative about the Rescue, and that person may become an adopter. Those weight circles you got from your neighbor will help to pay the vet bill. Did you collect empty laser or inkjet cartridges at your office and send them in? That helped to pay the electric bill. Did you ask all your friends and co-workers to save their old, dead cell phones for you? Those helped to pay the gas bill. Did you bring cleaning supplies, old blankets, or dog biscuits to the rescue? They were put to good use also.

Maybe you can afford to donate only \$5 per month or every other month. We appreciate ALL donations. Maybe your schedule limits the time you can volunteer. We appreciate whatever you can do. Without your donations of money or time, we could not continue to save the dogs.

When the Rescue was started in February 1992, it was never expected to become what it is today. Over the past years, we have seen rescues come and go, but we are still here saving dogs’ lives.

Of course the large donations are greatly appreciated, but nothing is ever too small or insignificant to be of value to our mission. Remember:

*Little drops of water,
Little grains of sand,
Make the mighty ocean
And the beautiful land.*

Julia Carney, 1845

Our Time Will Come

Grandma tells us every day that our time will come, but when? No, we aren’t cute little puppies any more, we are better! We already know to potty outside and our personalities are more developed

now. We aren’t just cute little lumps. No, we don’t give those cute little puppy kisses—we give big dog kisses. After all, we are big dogs, or will be soon!

We were bought when we were cute little puppies, but then we grew up and were dumped like yesterday’s garbage! Yes, we have been dumped for all sorts of reasons, and some say the reasons were good, but were they really? I did not see the human children dumped! What difference does it make *why* we were dumped—moving, divorce, new furniture? All that matters to

(continued on page 2)

us now is that we are homeless! Why can no one make a real lifelong commitment to us?

When will people learn that buying a puppy from a backyard breeder is not putting her out of business but paying her to stay in business? When will people learn not to buy that cute little “doggie in the window” from the pet store?

Grandma and our aunts and uncles at the Rescue love on us and give us all the attention they can, but let’s face facts— with all of us here it is never enough. We don’t want to seem ungrateful but we really want a family we can call our own!

Grandma says our time will come. But when, Grandma? Will I be old and gray or will I still be young and playful? When will I find a wonderful home with a family of my own that will take care of me and love me?

Is it my turn today, Grandma??

You can help us in our mission. Support spay/neuter, and encourage your friends to adopt their pets instead of buying them from pet stores or backyard breeders. You can help the Rescue with your sponsorships and donations. We have lots of work to do, and with your help, we can do it!

A Reminder

We still need funds and volunteers to convert the donated RV into a canine infirmary. As winter approaches, the need becomes even more urgent. Think about it. Dogs recovering from surgery need a quiet place to recuperate. Those requiring special medical care can best be attended in a special area away from the rest of the dogs. Keep this project in mind when you are thinking of volunteering or donating.

We try very hard to make sure that we have included all who have made donations to the Rescue since the last newsletter. If we have omitted anyone, we sincerely apologize. All gifts are important to us, and we strive to acknowledge them. Thank you.

“Dogs have given us their absolute all. We are the center of their universe. We are the focus of their love and faith and trust. They serve us in return for scraps. It is without a doubt the best deal man has ever made.”

Are Your Pets Protected?

No, we are not asking about fences, vaccinations, heartworm, etc. We are asking if your pets are protected if something should happen that would make it impossible for you to keep them and take care of them. Most people with minor children have appointed a trusted relative or friend to take responsibility for them in case of death or disability, but very few people have thought about what would happen to their pets if disaster should strike. It is not enough that you make provision in your will for their care. By the time your will is read, your pets could already have been euthanized or turned over to the local animal shelter.

The first thing you should do is ask a trusted relative or friend if he/she is willing to assume responsibility for your pets. If that person consents, the second thing you should do is prepare and sign a written document stating your wishes concerning your pets and give it to your pets' guardian. If any of your dogs were adopted from HHGDSBR, make sure that the first thing that person does is to notify the Rescue. Finally, in your will you should provide for the financial support of your pets to the best of your ability.

Eight Things Required of Us By Our Danes

- 1 My life may last 10 to 15 years. Any separation from you will be painful for me. Remember that before you buy me.
- 2 Give me time to understand what you want of me.
- 3 Place your trust in me—it is crucial for my well being.
- 4 Don't be angry with me for long, and don't lock me up as punishment. You have your work, your entertainment, and your friends. I have only you.
- 5 Talk to me sometimes. Even though I don't understand your words, I understand your voice when it is speaking to me.
- 6 Before you scold me for being "uncooperative" or "obstinate" or "lazy" ask yourself if something might be bothering me. Perhaps I am not feeling well, or my heart is getting old and weak.
- 7 Take care of me when I get old; you too will grow old.
- 8 Go with me on difficult journeys. Never say, "I can't bear to watch" or "Let it happen in my absence." Everything is easier for me if you are there.

Is your dog living large...too large?

A recent 14 year Purina Life Span Study found that dogs fed to ideal body condition throughout their lives had a median life span 15% greater than dogs who were not. In addition, the lean-fed dogs were healthier, and the study confirmed a link between body fat and certain health conditions.

According to the study, 6 out of 10 pets in the U.S. were overweight, yet half of their owners thought their overweight pets were in ideal shape. Obese dogs and even those which were only moderately overweight suffer from weight related health conditions such as osteoarthritis, diabetes, and cardiovascular problems.

How do you know what is ideal weight? Here are some guidelines.

Ideal: Ribs palpable without excess fat covering. Waist observed behind ribs when viewed from above. Abdomen tucked up when viewed from side.

Overweight: Ribs palpable with slight excess fat covering. Waist is discernible viewed from above but is not prominent. Abdominal tuck apparent.

(continued on page 7)

(continued from page 6)

Heavy: Ribs palpable with difficulty, heavy fat cover. Noticeable fat deposits over lumbar area and base of tail. Waist absent or barely visible.

Obese: Ribs not palpable under very heavy fat cover, or palpable only with significant pressure. Heavy fat deposits over lumbar area and base of tail. Waist absent. No abdominal tuck. Obvious abdominal distention may be present.

Grossly overweight: Massive fat deposits over thorax, spine and base of tail. Waist and abdominal tuck absent. Fat deposits on neck and limbs. Obvious abdominal distention.

Body Condition System™ developed and tested at the Purina Pet Center: <http://www.purina.ca/institute/whoware.asp?article=202>

Weight reduction with severely overweight or obese dogs should be done with medical supervision. If your dog is moderately overweight, diet and exercise may help. Most premium dog foods are available in weight management formulas. Do your dog a favor— keep him fit and trim.
